INDEX BY TITLES

NLGI SPOKESMAN - VOL. 15-20

- Additives for Lubricating Greases, R. T. MacDonald, J. L. Dreher, XVII, 16-26, April, 1953
- Adoption of 120-lb. Full Open Head Grease Drum and Comments on Changes to Dispensing Equipment, F. W. Langner, XVII, 26-29, July, 1953
- After the Sale, W. H. White, XVIII, 20-24, August, 1954
- Analytical Methods for Hydroxy-Acid Greases, M. P. Benitez, H. A. Levey, XV, 28-33, June, 1951
- Analyzing Wheel Bearing Grease Complaints, D. G. Proudfoot, XV, 8-15, December, 1951
- Animal Fats as Raw Materials, D. V. Stingley, XVI, 8-15, April, 1952
- Antioxidants for Greases, S. F. Calhoun, XIX, 8-28, March, 1956
- Automobile Manufacturers' Viewpoint, J. J. Gleeson, XVII, 8-9, January, 1954
- Automotive Greases and Chassis Lubrication, C. M. Heinen, XX, 16, October, 1956
- Bearing Failures in Electric Motors, G. Larsen, XIX, 16-21, June, 1955
- British American Starts Manufacturing Own Grease at Clarkson, R. O. Rinearson, C. W. Nofsinger, XVII, 8-15, September, 1953
- Canada's Newest Grease Plant, R. O. Rinearson, XIX, 8-13, June, 1955
- Capillary Viscometry of Lubricating Grease, L. C. Brunstrum, R. H. Leet, XX, 24-30, June, 1956
- Centralized Chassis Lubrication, C. H. Mueller, XX, 16-18, April, 1956

- Chassis Lubricant Performance - Driver's Reaction, J. F. McGrogan, XX, 28-30, October, 1956
- Chassis Lubricants - A Few Physical Facts of Life, J. V. Stucker, XX, 34-38, May, 1956
- The Chemistry of Fats, B. F. Daubert, XV, 8-11, November, 1951
- Common Denominators For Automotive Chassis Greases, T. G. Roehner, E. L. Armstrong, XX, 28-30, May, 1956
- Comparison of Laboratory and Field Bleeding Tests for Lubricating Greases, J. L. Dreher, A. L. McClellan, XIX, 30-38, March, 1956
- The Composition of Fats, B. F. Daubert, XV, 18-23, December, 1951
- Condensation of Discussion - Symposium on Studies of Grease Structure, A. Bondi, XIX, 33-34, April, 1955
- Continuous Method for Manufacture of Lithium Grease, P. J. Baker, N. T. Joyner, XVII, 18-24, June, 1953
- Contribution of Lubricating Grease Industry to Lubrication of Modern Farm Machinery, C. J. Boner, XX, 24-26, May, 1956
- Correlation of ASTM Grease Worker Tests with Field Performance, E. M. Higgins, XIX, 8-10, December, 1955
- Correlation of Bench Tests of Lubricating Grease With Service Tests in Wheel Bearings, C. J. Boner, H. E. Hale, G. A. Williams, XIX, 10, January, 1956
- Correlation of Laboratory Tests with Field Observations of Grease Fluidity, J. M. Stokely, S. R. Calish, XIX, 12-15 December, 1955
- Correlation of Laboratory Tests With the Stability of Greases In Freight Car Roller Bearings, J. M. Musselman, XIX, 11, December, 1955
- Corrosion Inhibited Automotive Greases, J. A. Bell, XX, 18-22, October, 1956
- A Critical Look at Chassis Lubricants, L. J. Kehoe, Jr., XX, 20-21, April, 1956

- Current Problems in Grease Lubrication of Ball Bearings, C. H. Hannan, XX, 17-20, February, 1956
- The Design and Use of the Shell Roll Test, J. D. Smith, XIX, 8-10, November, 1955
- Development of a Rubber-Compatible and Ice-Resistant Lubricant For Aircraft Ordnance, H. R. Baker, V. G. Fitzsimmons, C. R. Singleterry, F. F. Sullivan, T. M. Thomas, XX, 20-24, September, 1956
- Discussion of Analyzing Wheel Bearing Grease Complaints, H. L. Hemmingway, XV, 16, December, 1951
- Discussion - ASTM Symposium on Mechanical Stability of Lubricating Greases - Section III, B. B. Farrington, XIX, 22-26, February, 1956
- Discussion: Estersils - A New Class of Siliceous Thickening Agents, A. Bondi, W. H. Peterson, XVIII, 16-18, January, 1955
- Discussion of Greases for Electric Motors, E. M. Higgins, XVII, 20, March, 1953
- Discussion of Greases for Electric Motors, H. E. Mahncke, XVII, 23-25, March, 1953
- Discussion - Influence of Base Oil Characteristics on Performance of Anti-friction Bearing Greases, E. S. Carmichael, XX, 20, March, 1957
- Discussion - Papers Presented in Section II Symposium - Correlation of Laboratory Tests with Simulated Field Service, P. R. McCarthy, XIX, 12-14, January, 1956
- Discussion of Preparation and Properties of Silica Aerogel-Thickened Greases, W. L. Hayne, Jr., XVI, 29, January, 1953
- Discussion of Rheological Studies, L. W. McLennan, XV, 17, January, 1952
- Discussion of Roller Bearing Grease Lubricants for Railway Car Journals, O. L. Maag, XVII, 16, June, 1953
- Estersils: A New Class of Thickening Agents, G. C. Meyer, R. O. Braendle, XVIII, 8-16, December, 1954

- Evaluation of the Anti-Wear Properties of Gear Greases, N. J. Ninos, XV, 8-27, June, 1951
- Evaluation of Wheel Bearing Grease Performance, E. O. Forster, J. J. Kolfenbach, XVIII, 8-14, May, 1954
- Farm Lubrication Panel Discussion, Introduction and Conclusion, M. L. Carter, XX, 9-26, May, 1956
- Farmers Preferences in Agricultural Lubricating Greases, D. Hull, XX, 20-23, May, 1956
- Fibers, Forces and Flow, E. O. Forster, J. J. Kolfenbach, H. L. Leland, XX, 16-22, June, 1956
- The Fine Hole Lubricating Grease Worker as A Rapid Shear Stability Test, P. R. Sigler, K. Meinssen, XIX, 10-13, August, 1955
- Flow of Lubricating Grease Between Parallel Planes, L. C. Brunstrum, H. M. Grubb, XVII, 8-15, May, 1953
- Foaming of Heavy Oils, R. G. Moyer, XVI, 8-12, February, 1953
- Flow Properties of Lubricating Greases, N. Marusov, XV, 8-29, August, 1951
- Forces Responsible for Lubricating Grease Structure, M. Vold, XIX, 24-31, April, 1955
- The Four-Ball E. P. Tester, D. K. Nason, XV, 22-31, March, 1952
- Four-Point Program to Cut Highway Accidents, A. E. Spottke, XX, 24-28, March, 1957
- Fretting Corrosion Studies with A Modified Fafnir Machine, T. G. Roehner, E. L. Armstrong, XVI, 8-15, June, 1952
- Functions of the Lubrication Engineer in the Industrial Plant, T. N. Bath, XVI, 20-25, July, 1952
- Graphite as a Lubricant, E. S. Glauch, XV, 8-11, October, 1951
- Grease, E. A. Evans, XV, 21-29, April, 1951

- Grease Characteristics That Significantly Affect Dispensers,
J. M. Stokely, R. M. MacDonald, XVII, 20-25, January,
1954
- Grease Shear Stability, C. A. Bailey, XIX, 12-14, November,
1955
- Grease Structures Indicated by X-Ray Orientation Analysis and
Electron Microscopy, M. Vold, V. A. Elersich, R. F.
Baker, R. D. Vold, XVIII, 8-16, August, 1954
- Greases for Electric Motors, E. G. Jackson, E. R. Booser,
XVII, 8-18, March, 1954
- High Temperature Lubrication of Electric Motor Ball Bearings,
J. E. Brophy, J. Larson, C. R. Singleterry, W. A. Zisman,
XVII, 8-21, July, 1953
- High Temperature Ultra High Speed Grease Lubrication, J. P.
Dilworth, J. R. Roach, XX, 8-10, April, 1956
- How Shearing Affects Penetration of Greases, R. O'Halloran,
J. J. Kolfenbach, H. L. Leland, XIX, 12-16, February,
1956
- Importance of Lubrication to Industry Management, D. F.
Hollingsworth, XVI, 8-13, September, 1952
- Improved Methods - Grease Analysis, C. B. Coenen, R. S.
Urner, XVII, 8-17, August, 1953
- Influence of Base Oil Characteristics on Performance of Anti-
Friction Bearing Greases, H. A. Woods, XX, 16-20,
March, 1957
- Influence of Chemical Composition of Lubricating Oil On the
Manufacture of Lubricating Grease, C. J. Boner, XV,
7-18, April, 1951
- Inorgnaic Thickeners, Their Use in Grease Manufacture, G. C.
Meyer, XX, 18-19, September, 1956
- Introduction to NLGI Symposium on Flow Properties of
Lubricating Greases, N. Marusov, XX, 9, June, 1956
- Is Wheel Bearing Lubrication Progressing?, H. L. Hemmingway,
XV, 16, July, 1951

Keeping Grease Manufacturing Up To Date, E. W. Nelson, R. Trengrove, XIX, 6-12, July, 1955

Keeping Up To Date On Government Specifications, C. W. Kelley, XV, 30-31, August, 1951

A Laboratory Five-Pound Grease Kettle, E. L. Armstrong, XVII, 8-11, October, 1953

Let's Modernize Lubrication of Modern Farm Machinery, W. Bowers, XX, 14, May, 1956

Lithium Grease, J. A. Brown, C. N. Hudson, L. D. Loring, XV, 8-17, February, 1952

Lithium - Today and Tomorrow, H. C. Meyer, Jr., J. Fentress, XVI, 8-16, January, 1953

Low Temperature Operation of Aircraft Accessories, E. A. Baniak, R. S. Barnett, XX, 9-18, August, 1956

Lubricants for Drawing Metals, A. A. Brown, XVII, 8-21, November, 1953

Lubricating Grease, G. W. Miller, XVIII, 18-25, June, 1954

Lubricating Grease Research on the West Coast, C. J. Boner, XVIII, 8-19, September, 1954

Lubricating Greases from the Viewpoint of the Dispensing Equipment Manufacturers, J. R. Reinsma, XVII, 16-19, January, 1954

Lubrication Equipment for Modern Farm Machinery, O. L. Bandy, XX, 16-18, May, 1956

Lubrication of Modern Farm Machinery Question and Answer Session, NLGI Panel Discussion, XX, 41-45, June, 1956

Maintenance Lubrication of Ball and Roller Bearings, R. L. Wheeler, XVI, 20-32, May, 1952

The Man Behind The Dollar, W. B. Rice, XIX, 24, September, 1955

Materials Handling in Lubricating Grease Packaging Operations, P. F. Lueth, Jr., XVI, 18-23, April, 1952

- Mechanical Stability of Greases - Bench Tests Versus Field Service, S. F. Calhoun, F. E. Woodward, XIX, 8-10, January, 1956
- Mechanical Stability of Greases In Electric Motors, E. G. Jackson, E. R. Booser, XIX, 8-10, February, 1956
- Mechanical Stability Tests for Lubricating Greases, E. F. Koenig, E. M. Johnson, XIX, 14-25, August, 1955
- Middle East Oil and European Refineries, G. Egloff, XV, 8-19, March, 1952
- Military Lubricants, C. W. Kelley, XV, 20-26, February, 1952
- Modern Farm Machines Need Modern Greases, N. A. Sauter, XX, 10-12, May, 1956
- Modern Lubricants From a Modern Plant, E. L. Sutton, XIX, 6-13, May, 1955
- A Modified Gear-Wear Tester, R. Steinbruch, L. C. Brunstrum, XVII, 18-23, February, 1954
- Molybdenum Disulfide as a Grease Additive, E. E. Smith, XX, 20-30, December, 1956
- Multi-Purpose Grease - Profits Plus Simplification, A. C. Sommers, XV, 8-11, September, 1951
- A New High Performance Grease Mixer, O. L. Yarham, P. R. Sigler, XX, 14-22, November, 1956
- A New Method of Grease Testing, A. F. Buri, XIX, 38-43, April, 1955
- New Synthetic Thickener for Multipurpose Lubricating Grease, J. L. Dreher, B. W. Hotten, C. F. Carter, XX, 10-15, February, 1957
- NLGI Dispensing Test, T. G. Roehner, XV, 7-13, May, 1951
- NLGI Fellowship Report, M. J. Vold, XVI, 8-17, November, 1952
- NLGI Symposium on Flow Properties of Lubricating Greases, NLGI Panel Discussion, XX, 26-29, July, 1956

NLGI TENTATIVE METHOD for Matching Grease Flow
Properties With Lubricating Grease Dispensing Pump
Delivery Behavior at Low Temperature, Introduction
N. Marusov, XIX, 10, September, 1955

Optical Studies of Lubricating Grease Structure, B. W. Hotten,
XIX, 14-19, April, 1955

Organizing and Evaluating an Industrially Sponsored Academic
Research Program, M. J. Vold, R. D. Vold, XVII,
8-14, April, 1953

Oxidized Petroleum Wax as a Grease Base, J. C. Kirk, E.
W. Nelson, XVIII, 8-16, June, 1954

The Performance and Testing of Lubricating Greases Under
Wet Operating Conditions, H. L. Hendricks, J. D. Smith,
XVIII, 12-20, July, 1954

Performance of Synthetic Greases, E. R. Booser, A. E.
Baker, E. G. Jackson, XVI, 8-18, December, 1952

Petroleum Sulfonates in Grease Manufacture, R. K. Rhodes,
XV, 14-15, November, 1951

Phthalocyanine Lubricating Greases, V. G. Fitzsimmons, R.
I. Merker, C. R. Singleterry, XVI, 8-17, July, 1952

Picker-Lube Payoff, J. Y. McCollister, XX, 12-14, April,
1956

A Plea for Uniform Packaging of Lubricating Grease, L. C.
Rotter, XV, 6-13, July, 1951

Practical Application of Rheological Constants Equipment
Aspects In Dispensing Grease, L. C. Rotter, XX, 10-11,
July, 1956

Practical Significance of Mechanical Stability, J. F. McGrogan,
XIX, 22-32, October, 1955

Predicting Pressure Drops in Grease Distribution Equipment,
E. M. Johnson, E. F. Koenig, E. A. Baniak, XX, 12-19,
July, 1956

Preparation and Properties of Silica Aerogel-Thickened
Greases, E. C. Milberger, L. J. Swatik, XVI, 18-29,
January, 1953

Problems Associated With Grease Lubrication of High
Speed High Temperature Bearings, H. Hanau, XX,
10-14, March, 1957

Proposed NLGI Method for Matching Dispensing Pumps With
Lubricating Grease Properties, N. Marusov, XVII,
25-29, January, 1954

Pumpability of Steel Mill Greases (Symposium '56), J. S.
Aarons, R. G. Warren, XX, 20-24, July, 1956

Quality Control of Lubricants, C. R. Burton, XVI, 8-14,
August, 1952

Recommended Practices for Lubricating Automotive Front
Wheel Bearings, NLGI Manual, XVIII, 11-26, November,
1954

Relation of Relaxation Theory to Some Properties of Lubricants,
H. Eyring, T. Ree, A. Fava, I Higuchi, XX, 10-15,
June, 1956

Resume of Today's Complexities in Dispensing Lubricants,
A. R. Boyer, XVII, 10-15, January, 1954

Rheological Measurements and Their Application to Pipeflow
Problems, R. N. Weltmann, XX, 34-40, June, 1956

Rheological Studies, R. D. Vold, H. G. Coffey, R. F. Baker,
XV, 8-16, January, 1952

Rheological Studies on the Syneresis of Lubricating Greases, B.
Yamaguchi, T. Oki, H. Kageyama, XVIII, 8-13,
February, 1955

A Rheopectic Grease for Chassis Lubrication, J. D. Neesley,
L. C. Brunstrum, H. J. Liehe, XX, 24-26, October,
1956

Roller Bearing Grease Lubricants for Railway Car Journals,
H. T. Rockwell, XVII, 8-15, June, 1953

Rotary Pumps, Basic Considerations In Their Applications, W.
J. Mongon, XV, 15-27, May, 1951

Safety On The Highways Is Everybody's Job, J. C. Zeder,
XX, 8-13, November, 1956

- A Sales Engineer Looks At the Steel Industry, C. C. Goehring, XVI, 8-17, May, 1952
- Selling Customer Benefits, C. E. Gore, XX, 22-30, February, 1957
- Selection of Equipment for Successful Operation of New Grease Plant, O. L. Yarham, XVIII, 8-28, March, 1955
- Service Requirements for Multipurpose Automotive Greases, J. M. Stokely, XX, 26-31, September, 1956
- The Service Station and Automotive Service - What Happens Tomorrow?, R. Shaw, XX, 23-28, August, 1956
- Shear Stability of Greases, E. L. Armstrong, R. A. Butcosk, XIX, 14, November, 1955
- Shear Stability of Lubricating Greases, C. A. Zeiler, XIX, 16-19, January, 1956
- Shell Roll Test for Evaluating Mechanical Stability, H. A. Woods, H. M. Trowbridge, XIX, 26-31, August, 1955
- Shell's Training Program Aims at Giving Dealers What They Want To Know, Shell Oil Company, XVIII, 16-18, May, 1954
- Similarities of Grease Fiber Dimensions In Laboratory Work And Service, R. H. Leet, L. C. Brunstrum, S. R. Barnes, XIX, 18-20, February, 1956
- Some Aspects of Bentone Greases, R. E. Fariss, XX, 10-16, January, 1957
- Some New Approaches to the Measurement and Prediction of The Apparent Viscosity of Lubricating Greases, J. L. Dreher, C. F. Carter, E. B. Reid, XVIII, 8-12, January, 1955
- Standardization Metal Drums Dimensional Standards, R. D. Reed, XVIII, 32, November, 1954
- The Structure of Aluminum Greases, W. K. Dean, XV, 12-21, September, 1951

The Structure of Lubricating Grease, I. E. Puddington,
XIX, 10-12, April, 1955

Substituted Ureas as Grease Thickeners, E. A. Swakon,
C. G. Brannen, L. C. Brunstrum, XVIII, 8-12,
April, 1954

Symposium on Dispensing Lubricating Greases In Service
Stations and Garages, NLGI Technical Committee 1953,
XVII, 8-29, January, 1954
XVII, 28-30, March, 1954

Introduction - Symposium - Studies of Grease Structure,
L. C. Brunstrum, XIX, 9, April, 1955

Symposium on Utilization of Fatty Acids in the Manufacture
of Lubricating Greases, NLGI Technical Committee
1952, XVI, 16-32, March, 1953

Taking the Confusion Out of Wheel Bearing Lubrication,
P. V. Toffoli, Jr., XX, 32-33, September, 1956

Technical Considerations in the Marketing of Rear Axle
Lubricants, C. M. Heinen, XX, 17-22, January, 1957

Tentative Method of Test for Cone Penetration of Lubricating
Greases, American Society for Testing Materials,
XVII, 31-37, April, 1953

Thickener Particle Dimensions and Lubricating Grease
Consistency, R. Leet, XIX, 20-23, April, 1955

To Mix - Or Not To Mix, M. Ehrlich, F. S. Sayles, XVII,
8-17, February, 1954

Traffic Safety Through Enforcement, R. Ashworth, XX,
25-28, January, 1957

USAF Grease Development and Lubrication Problems, B.
Rubin, J. C. Mosteller, XVI, 14-23, February, 1953

Use of Aerogels for Examining Structure of Lubricating Grease
Thickeners, A. L. McClellan, J. Cortes, Jr., XX,
12-16, September, 1956

Varied Role of Glycerine in Modern Lubrication, M. A.
Lesser, XVI, 8-13, March, 1953

Why Container Standardization, C. H. Phillips, J. G.
Scully, XVIII, 30-31, October, 1954

Why Recommended Practices for Lubricating Automotive
Front Wheel Bearings Was Prepared, H. L. Hemming-
way, XVIII, 11-26, November, 1954

Your Responsibility to Marketing, W. H. Garbade, XVII,
8-11, December, 1953

INDEX BY AUTHORS

INDEX BY CATEGORY

NLGI SPOKESMAN - VOL. 15-20

AGRICULTURAL MACHINERY

Care and maintenance

- Lubrication Equipment for Modern Farm Machinery, Owen L. Bandy, XX, 16-18, May, 1956
- Farmers Preferences in Agricultural Lubricating Greases, Dale Hull, XX, 20-23, May, 1956
- Contribution of Lubricating Grease Industry to Lubrication of Modern Farm Machinery, C. J. Eoner, XX, 24-26, May, 1956
- Question and Answer Session - Farm Lubrication Panel, XX, 41-45, June, 1956
- Picker-Lube Payoff, J. Y. McCollister, XX, 12-14, April, 1956
- Let's Modernize Lubrication of Modern Farm Machinery, Wendell Eowers, XX, 14, May, 1956
- Modern Farm Machines Need Modern Greases, N. A. Sauter, XX, 10-12, May, 1956

AIRPLANE ENGINE

Bearings

- Problems Associated with Grease Lubrication of High Speed High Temperature Bearings, Heinz Hanau, XX, 10-14, March, 1957

Jet Engines

- High Temperature Ultra High Speed Grease Lubrication, J. P. Dilworth, J. R. Roach, XX, 8-10, April, 1956

Lubrication

- Development of a Rubber-Compatible and Ice Resistant Lubricant for Aircraft Ordinance, H. R. Baker, V. G. Fitzsimmons, C. R. Singleterry, F. F. Sullivan, T. M. Thomas, XX, 20-24, September, 1956.
- USAF Grease Development and Lubrication Problems, B. Rubin, J. C. Mosteller, XVI, 14-23, February, 1953
- Military Lubricants, C. W. Kelley, XV, 20-26, February, 1952
- Military Specifications
 - USAF Grease Development and Lubrication Problems, B. Rubin, J. C. Mosteller, XVI, 14-23, February, 1953
 - Military Lubricants, C. W. Kelley, XV, 20-26, February, 1952
 - Keeping Up To Date on Government Specifications, K. W. Kelly, XV, 30-31, August, 1951

Temperature

- Low Temperature Operation of Aircraft Accessories, E. A. Baniak, R. S. Barnett, XX, 9-18, August, 1956

AUTOMOBILES

Bearings

- Recommended Practices for Lubricating Automotive Front Wheel Bearings, NLGI Manual, XVIII, 11-26, November, 1954
- Corrosion Inhibited Automotive Greases, J. A. Bell, XX, 18-22, October, 1956
- Maintenance Lubrication of Ball and Roller Bearings, R. Wheeler, XVI, 29-32, May, 1952
- To Mix - Or Not To Mix - A Study of Wheel Bearing Grease Compatibilities, M. Ehrlich, F. S. Sayles, XVII, 8-17, February, 1954
- Evaluation of Wheel Bearing Grease Performance, E. O. Forster, J. J. Kolfenbach, XVIII, 8-14, May, 1954

Chassis

- Common Denominator for Automotive Chassis Greases, T. G. Roehner, E. L. Armstrong, XX, 28-30, May, 1956
- Chassis Lubricants - A Few Physical Facts of Life, J. V. Stucker, XX, 34-38, May, 1956
- Chassis Lubricant Performance-Driver's Reaction, J. E. McGrogan, XX, 28-30, October, 1956
- Centralized Chassis Lubrication, C. H. Mueller, XX, 16-18, April, 1956
- Analyzing Wheel Bearing Grease Complaints, D. G. Proudfoot, XV, 8-15, December, 1951
- Is Wheel Bearing Lubrication Progressing?, H. L. Hemmingway, XV, 16-21, July, 1951
- Critical Look at Chassis Lubricants, L. J. Kehoe, Jr., XX, 20-21, April, 1956
- A Rheoplectic Grease for Chassis Lubrication, J. D. Neesley, L. C. Brunstrum, H. J. Liehe, XX, 24-26, October, 1956
- Automotive Greases and Chassis Lubrication, C. M. Heinen, XX, 16, October, 1956
- Service Requirements for Multipurpose Automotive Greases, J. M. Stokely, XX, 26-31, September, 1956
- Technical Considerations in the Marketing of Rear Axle Lubricants, C. M. Heinen, XX, 17-22, January, 1957

CONTAINERS

- Why Container Standardization, C. H. Phillips, J. G. Scully, XVIII, 30-31, October, 1954
- Standardization Metal Drums Dimensional Standards, R. C. Reed, XVIII, 32, November, 1954
- A Plea for Uniform Packaging of Lubricating Grease, L. C. Rotter, XV, 9-13, July, 1951

DISPENSING APPARATUS

- Lubrication Equipment for Modern Farm Machinery, Owen L. Bandy, XX, 16-18, May, 1956
- Farmer Preferences in Agricultural Lubricating Greases, Dale Hull, XX, 20-23, May, 1956
- Contribution of Lubricating Grease Industry to Lubrication of Modern Farm Machinery, C. J. Boner, XX, 24-26, May, 1956

DISPENSING APPARATUS (Continued)

Predicting Pressure Drops in Grease Distribution Equipment,
E. F. Koenig, E. M. Johnson, E. A. Baniak, XX, 12-19,
July, 1956.

Practical Application of Rheological Constants Equipment Aspects
In Dispensing Grease, L. C. Rotter, XX, 10-11, July, 1956

EQUIPMENT, see lubricating greases - manufacture, dispensing apparatus,
mixers, pumps

LUBRICATING GREASES

Additives

Molybdenum Disulfide as a Grease Additive, E. E. Smith, 20-30,
XX, December, 1956

Antioxidants for Greases, S. F. Calhoun, XIX, 8-28, March, 1956

Additives for Lubricating Greases, R. T. MacDonald, J. L.
Dreher, XVII, 16-26, April, 1953

Phthalocyanine Lubricating Greases, V. G. Fitzsimmons, R. L.
Merker, C. R. Singleterry, XVI, 8-17, July, 1952

Analyses

Technical Considerations in the Marketing of Rear Axle Lubri-
cants, C. M. Heinen, XX, 17-22, January, 1957

The Service Station and Automotive Service - What Happens
Tomorrow?, Raymond Shaw, XX, 23-28, August, 1956

Contribution of Lubricating Grease Industry to Lubrication of
Modern Farm Machinery, C. J. Boner, XX, 24-26, May,
1956

Rheological Measurements and Their Application to Pipeflow
Problems, R. N. Weltmann, XX, 34-40, June, 1956

Relation of Relaxation Theory to Some Properties of Lubricants,
H. Eyring, T. Ree, A. Fava, I. Higuchi, XX, 10-15, June,
1956

Improved Methods - Grease Analysis, C. B. Coenen, R. S. Urner
XVII, 8-17, August, 1953

Grease, E. A. Evans, XV, 21-29, April, 1951

Lubricating Grease, G. E. Miller, XVIII, 18-25, June, 1954

Manufacture

Selection of Equipment for Successful Operation of New Grease
Plant, O. L. Yarham, XVIII, 8-28, March, 1955

Modern Lubricants from a Modern Plant, E. L. Sutton, XIX,
6-13, May, 1955

Canada's Newest Grease Plant, R. O. Rinearson, XIX, 8-13,
June, 1955

Keeping Grease Manufacturing Up-To-Date, E. W. Nelson, R.
Trengrave, XIX, 6-12, July, 1955

British American Starts Manufacturing Own Grease at Clarkson,
R. O. Rinearson, C. W. Nofsinger, XVII, 8-15, September,
1953

A Laboratory Five-Pound Grease Kettle, E. L. Armstrong, XVII,
8-11, October, 1953

LUBRICATING GREASES (continued)

Manufacture

- Foaming of Heavy Oils, R. G. Moyer, XVI, 8-12, February, 1953
- Materials Handling in Lubricating Grease Packaging Operations, P. F. Lueth, Jr., XVI, 18-23, April, 1952

Non-soap thickeners

- New Synthetic Thickener for Multipurpose Lubricating Grease, J. L. Dreher, B. W. Hotten, C. F. Carter, XX, 10-15, February, 1957
- Some Aspects of Bentone Greases, R. E. Fariss, XX, 10-16, January, 1957
- Inorganic Thickeners, Their Use in Grease Manufacture, G. C. Meyer, XX, 18-19, September, 1956
- Use of Aerogels for Examining Structure of Lubricating Grease Thickeners, A. L. McClellan, J. Cortes, Jr., XX, 12-16, September, 1956
- Substituted Ureas as Grease Thickeners, E. A. Swakin, C. G. Brannen, L. C. Brunstrum, XVIII, 8-12, April, 1954
- Continuous Method for Manufacture of Lithium Grease, P. J. Baker, N. T. Joyner, XVII, 18-24, June, 1953
- Preparation and Properties of Silica Aerogel-Thickened Greases, E. C. Milberger, L. J. Swatik, XVI, 18-29, January, 1953
- Estersils: A New Class of Thickening Agents, G. C. Meyer, R. O. Braendle, XVIII, 8-16, December, 1954
- Discussion: Estersils - A New Class of Siliceous Thickening Agents, A. Bondi, W. H. Peterson, XVIII, 16-18, January, 1955

Raw Materials

- Continuous Method for Manufacture of Lithium Grease, P. J. Baker, N. T. Joyner, XVII, 18-24, June, 1953
- Oxidized Petroleum Wax as a Grease Base, J. C. Kirk, E. W. Nelson, XVIII, 8-16, June, 1954
- The Composition of Fats, B. F. Daubert, XV, 18-23, December 1951
- The Chemistry of Fats, B. F. Daubert, XV, 8-11, November, 1951
- Graphite as a Lubricant, E. S. Glauch, XV, 8-11, October, 1951
- Petroleum Sulfonates in Grease Manufacture, R. K. Rhodes, XV, 14-15, November, 1951
- Lithium Grease, J. A. Brown, C. N. Hudson, L. D. Loring, XV, 8-17, February, 1952
- Varied Role of Glycerine in Modern Lubrication, M. A. Lesser, XVI, 8-13, March, 1953
- Lithium - Today and Tomorrow, H. C. Meyer, Jr., J. Fentress, XVI, 8-16, January, 1953
- Animal Fats as Raw Materials, D. V. Stingley, XVI, 8-15, April, 1952

Structure

- Rheological Measurements and Their Application to Pipeflow Problems, R. N. Weltmann, XX, 34-40, June, 1956
- Capillary Viscometry of Lubricating Grease, L. C. Brunstrum, R. H. Leet, XX, 24-30, June, 1956

LUBRICATING GREASES (continued)

Structure (continued)

- Fibers, Forces and Flow, E. O. Forster, J. J. Kolfenbach, H. L. Leland, XX, 16-22, June, 1956
- Relation of Relaxation Theory to Some Properties of Lubricants
H. Eyring, T. Ree, A. Fava, I. Higuchi, XX, 10-15, June, 1956
- Practical Application of Rheological Constants Equipment Aspects
In Dispensing Grease, L. C. Rotter, XX, 10-11, July, 1956
- Use of Aerogels for Examining Structure of Lubricating Grease
Thickeners, A. L. McClellan, J. Cortes, Jr., XX, 12-16, September, 1956
- Grease Structures Indicated by X-Ray, Orientation Analysis and
Electron Microscopy, M. J. Vold, V. A. Elersich, R. F. Baker, R. D. Vold, XVIII, 8-16, August, 1954
- Rheological Studies on the Syneresis of Lubricating Greases,
B. Yamaguchi, T. Oki, H. Kageyama, XVIII, 8-13, February, 1955
- Flow of Lubricating Greases Between Parallel Planes, L. C. Brunstrum, H. M. Grubb, XVII, 8-15, May, 1953
- Structure of Aluminum Greases, W. K. Dean, XV, 12-21, September, 1951
- Influence of Chemical Composition of Lubricating Oil in the
Manufacture of Lubricating Grease, C. J. Boner, XV, 7-18, April, 1951
- Performance of Synthetic Greases, E. R. Booser, A. E. Baker, E. G. Jackson, XVI, 8-18, December, 1952
- Symposium - Studies of Grease Structure Introduction, L. C. Brunstrum, XIX, 9, April, 1955
- The Structure of Lubricating Grease, I. E. Puddington, XIX, 10-12, April, 1955
- Optical Studies of Lubricating Grease Structure, B. W. Hotten, XIX, 14-19, April, 1955
- Thickener Particle Dimensions and Lubricating Grease Consistency, R. H. Leet, XIX, 20-23, April, 1955
- Forces Responsible for Lubricating Grease Structure, M. J. Vold, XIX, 24-31, April, 1955
- Practical Significance of Mechanical Stability, M. F. McGrogan, XIX, 22-32, October, 1955
- Grease Shear Stability, C. A. Bailey, XIX, 12-14, November, 1955
- Shear Stability of Greases, E. L. Armstrong, R. A. Butcosk, XIX, 14, November, 1955
- Shear Stability of Lubricating Greases, C. A. Zeiler, XIX, 16-19, January, 1956

Testing

- Pumpability of Steel Mill Greases, J. S. Aarons, R. G. Warren, XX, 20-24, July, 1956
- Comparison of Laboratory and Field Bleeding Test for Lubricating Greases, J. L. Dreher, A. L. McClellan, XIX, 30-38, March, 1956

LUBRICATING GREASES (continued)

Testing (continued)

- The Performance and Testing of Lubricating Greases Under Wet Operating Conditions, H. L. Henrick, J. D. Smith, XVIII, 12-20, July, 1954
- Some New Approaches to the Measurement and Prediction of the Apparent Viscosity of Lubricating Greases, J. L. Dreher, C. F. Carter, E. B. Reid, XVIII, 8-12, January, 1955
- A Modified Gear-Wear Tester, R. Steinbruch, L. C. Brunstrum, XVII, 18-23, February, 1954
- Rheological Studies, R. D. Vold, H. F. Coffey, R. F. Baker, XV, 8-16, January, 1952
- Flow Properties of Lubricating Greases, N. Maruzov, XV, 8-29, August, 1951
- The Four-Ball E. P. Tester, D. K. Nason, XV, 23-31, March, 1952
- Evaluation of the Anti-Wear Properties of Gear Greases, N. J. Ninos, 8-27, XV, June, 1951
- NLGI Dispensing Test, T. G. Roehner, XV, 7-13, May, 1951
- Analytical Methods for Hydroxy-Acid Greases, M. P. Benitez, H. A. Levey, XV, 28-33, June, 1951
- Quality Control of Lubricants, C. R. Burton, XVI, 8-14, August, 1952
- Fretting Corrosion Studies With a Modified Fafnir Machine, T. G. Roehner, E. L. Armstrong, XVI, 8-15, June, 1952
- How Shearing Affects Penetration of Greases, R. O'Halloran, J. J. Kolfenbach, H. L. Leland, XIX, 12-16, February, 1956
- A New Method of Grease Testing, A. F. Buri, XIX, 38-43, April, 1955
- The Fine Hole Lubricating Grease Worker as a Rapid Shear Stability Test, P. R. Sigler, Klaus Meinsser, XIX, 10-13, August, 1955
- Mechanical Stability Tests for Lubricating Greases, E. F. Koenig, E. M. Johnson, XIX, 14-25, August, 1955
- Shell Roll Test for Evaluating Mechanical Stability, H. A. Woods, H. M. Trowbridge, XIX, 26-31, August, 1955
- NLGI Tentative Method for Matching Grease Flow Properties With Lubricating Grease Dispensing Pump Delivery Behavior at Low Temperature, N. Marusov, XIX, 10-18, September, 1955
- The Design and Use of the Shell Roll Test, J. D. Smith, XIX, 8-10, November, 1955
- Correlation of ASTM Grease Worker Tests with the Stability of Greases in Freight Car Roller Bearings, J. M. Musselman, XIX, 8-10, December, 1955
- How Shearing Affects Penetration of Greases, R. O'Halloran, J. J. Kolfenbach, H. L. Leland, XIX, 12-16, February, 1956
- Tentative Method of Test for Cone Penetration of Lubricating Greases, American Society for Testing Materials, XVII, 31-37, April, 1953

LUBRICATING GREASES (continued)

Testing (continued)

- Influence of Base Oil Characteristics on Performance of Anti-friction Bearing Greases, H. A. Woods, XX, 16-20, March, 1957, Discussion by E. S. Carmichael, XX, 20, March, 1957
- Correlation of Laboratory Tests with Field Observation of Grease Fluidity, J. M. Stokely, S. R. Calish, XIX, 12-15, December, 1955
- Mechanical Stability of Greases - Bench Tests Versus Field Service, S. A. Calhoun, F. E. Woodward, XIX, 8-10, January, 1956
- Correlation of Bench Test of Lubricating Grease with Service Tests in Wheel Bearings, C. J. Boner, H. E. Hale, G. E. Williams, XIX, 10, January, 1956
- Mechanical Stability of Greases in Electric Motors, E. G. Jackson, E. R. Booser, XIX, 8-10, February, 1956
- Similarities of Grease Fiber Dimensions in Laboratory Work and Service, R. H. Leet, L. C. Brunstrum, S. R. Barnes, XIX, 18-20, February, 1956
- Current Problems in Grease Lubrication of Ball Bearings, C. H. Hannan, XX, 17-20, February, 1957, Discussion by E. M. Higgins, XX, 20, February, 1957

MARKETING - lubrication

- Technical Considerations in the Marketing of Rear Axle Lubricants, C. M. Heinen, XX, 17-22, January, 1957
- Farmers Preferences in Agricultural Lubricating Greases, Dale Hull, XX, 20-23, May, 1956
- Picker-Lube Payoff, J. Y. McCollister, XX, 12-14, April, 1956
- The Man Behind The Dollar, W. B. Rice, XIX, 24, September, 1955
- After the Sale, W. H. White, XVIII, 20-24, August, 1954
- Your Responsibility to Marketing, W. H. Garbade, XVII, 8-11, December, 1953
- Importance of Lubrication to Industry Management, D. F. Hollingsworth, XVI, 8-13, September, 1952
- Functions of the Lubrication Engineer, in the Industrial Plant, N. Bath, XVI, 20-25, July, 1952
- A Sales Engineer Looks at the Steel Industry, C. C. Goehring, XVI, 8-17, May, 1952
- Multi-Purpose Grease Profits Plus Simplification, A. C. Sommers, XV, 8-11, September, 1951
- Middle East Oil and European Refineries, G. Egloff, XV, 8-19, March, 1952
- Selling Customer Benefits, C. E. Gore, XX, 22-30, February, 1957

MIXERS

- A New High Performance Grease Mixer, O. L. Yarham, P. R. Sigler, XX, 14-22, November, 1956
Foaming of Heavy Oils, R. G. Moyer, XVI, 8-12, February, 1953

MOTORS - lubrication

- Bearing Failures in Electric Motors, G. Larsen, XIX, 16-21, June, 1955
High Temperature Lubrication of Electric Motor Ball Bearings, J. E. Brophy, J. Larson, C. R. Singleterry, W. A. Zisman, XVII, 8-21, July, 1953
Greases for Electric Motors, E. G. Jackson, E. R. Booser, XVII, 8-18, March, 1954
Mechanical Stability of Greases in Electric Motors, E. G. Jackson, E. R. Booser, XIX, 8-10, February, 1956
Influence of Base Oil Characteristics on Performance of Anti-friction Bearing Greases, H. A. Woods, XX, 16-20, March, 1957, Discussion by E. S. Carmichael, XX, 20, March, 1957
Lubricants for Drawing Metal, A. A. Brown, XVII, 8-21, November, 1953
Maintenance Lubrication of Ball and Roller Bearings, R. Wheeler, XVI, 20-32, May, 1952

PLANTS - see lubricating - manufacture

PUMPS

- Pumpability of Steel Mill Greases, J. S. Aarons, R. G. Warren, XX, 20-24, July, 1956
Rotary Pumps, Basic Considerations in Their Applications, W. J. Mongon, XV, 15-27, May, 1951

SAFETY

- Safety on the Highways is Everybody's Job, J. C. Zeder, XX, 8-13, November, 1956
Traffic Safety Through Enforcement, R. Ashworth, XX, 25-28, January, 1957
Four-Point Program to Cut Highway Accidents, A. E. Spottke, XX, 24-28, March, 1957
